

LOUISE CABROLIER

ENGINEERING STUDENT SPECIALIZING IN EMBEDDED SYSTEMS

PERSONAL INFORMATION

+33 7 82 03 84 63

louise.cabrolier@gmail.com

Louise Cabrolier

183 rue des Pyrénées
75020 Paris, France

SKILLS

- Languages

French (native speaker, Voltaire certification), English (TOEIC B2/C1), Chinese (11 years of study), Italian (Erasmus exchange)

- Computer skills

Python, C/C++, MySQL, HTML

INTERESTS AND ACTIVITIES

Travel and cultural exchange:

- extensive experience in Asia, Europe, and North America
- development of my intercultural sensitivity

Sports and physical activities:

- handball, cycling, CrossFit
- Demonstrates the ability to work in a team and to demonstrate discipline and endurance

EDUCATION

2024 - present | ESIEE Paris/ Gustave Eiffel University, France:
Currently in my second year of an engineering degree specializing in Embedded Systems

Semester 2 2026 | University of Bologna, Italy:
Engineering Program - Specialization in Automation

2022 – 2024 | Lycée Dhuoda, Nîmes, France:
CPGE Physics Technology and Engineering Sciences

2019 – 2022 | Lycée Jules Guesde, Montpellier, France:
Baccalaureate and International Option (Chinese),
Mathematics and Physics/Chemistry

RELEVANT EXPERIENCES

PROJECT: DOMOWATCH: GESTURE RECOGNITION AT HOME FOR PEOPLE WITH REDUCED MOBILITY

ESIEE Paris

2025

Development of a smartwatch integrating embedded artificial intelligence (TensorFlow Lite, 99.5% accuracy), Bluetooth BLE communication, and infrared home automation control. Technologies used: Arduino, Python/machine learning, 3D design, project management.

Result: A watch that allows you to control your television using simple and easy-to-reproduce gestures.

PROJECT: CONTROL OF A MOBILE ROBOT WITH DIFFERENTIAL WHEELS

ESIEE Paris

2025

Differential wheel robot controller: ROS-based (C++) autonomous navigation system with odometer tracking and obstacle detection. Simulation tests (Gazebo) and hardware deployment (Raspberry Pi/Arduino).

Result: A robot that can orient itself and follow a given path

E3 STUDENT INTEGRATION COMMITTEE

ESIEE Paris

2025

- integration of new students
- development of my leadership and organizational skills

SUMMER CAMP - LANGUAGE EXCHANGE

Xi'an Jiao Tong University, China

2025

- meetings with various Chinese companies
- taking courses in mechanical engineering
